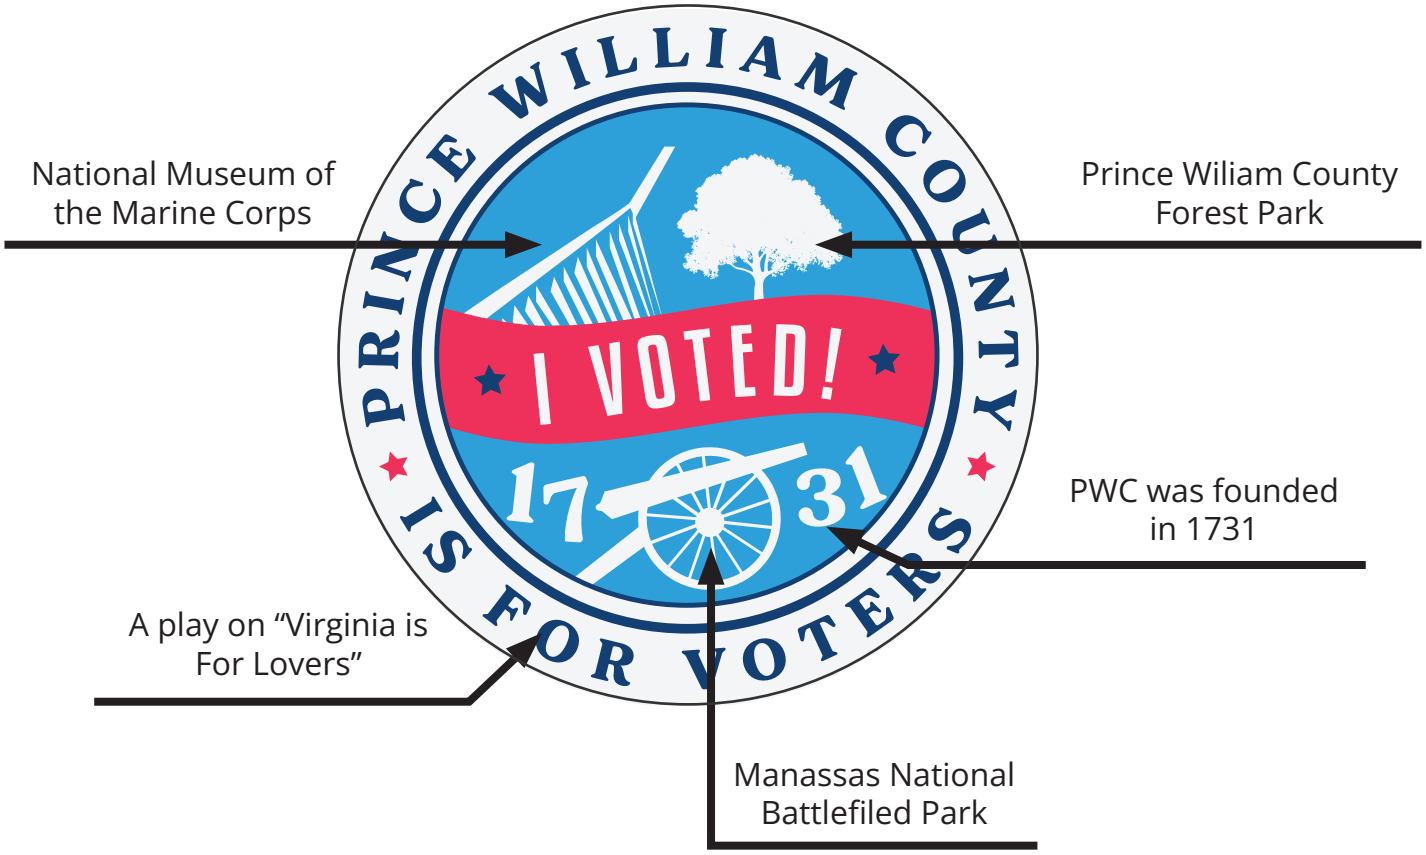
PRINCE WILLIAM
Office of Elections

2026 "I Voted" Sticker Info Sheet



Prince William County Montage.
The above design incorporates several uniquely Prince William County images and references into one image.
With landmarks from both the eastern and western ends of the county (National Museum of the Marine Corps and the Manassas National Battlefield Park) and a nod to the many trees that grow both within and beyond Prince William County Forest Park, all voters will recognize something that they see in thier own neighborhoods every day. Further, noting the year of the county's founding and rounding out the design with a nod to the slogan of the great state in which we live (Virginia is for Lovers), November 2026's "Prince William County Montage" design has something for everyone to show their county pride and boast their civic duty.
